

Tennessee EV Battery information Jed,

Would you mind sharing this with the RRT?

We discussed the *TEMA Battery Basics and Hazards* 4-hour awareness course. The Google drive link will take you to the course materials. The power point presentation is around 80 slides and 250 MB. For your convenience, I have attached the 3 worksheets.

https://drive.google.com/drive/folders/1eKZiRMCC_3hjUkzP0FdNp199z-8gr4Wk

If you have questions regarding the course, please contact Michael Rinehart. He is currently working on the 2.0 update, which we will gladly share once completed.
