**FIELD KITCHEN UNIT**

**DESCRIPTION**
Field Kitchen Units are deployable feeding units, typically a trailer or tractor-trailer with accompanying personnel, set up at a stationary location to produce a significant quantity of meals.

**RESOURCE CATEGORY**
Mass Care

**OVERALL FUNCTION**
Field kitchens provide a centralized food production site that prepares and serves food to survivors and responders, or for distribution by Food Service Delivery Units. Food service capabilities are based on a predetermined standard meal.

**RESOURCE KIND**
Unit

**COMPOSITION AND ORDERING SPECIFICATIONS**
1. The type of kitchen ordered depends on the number of meals needed
2. This resource is not recommended for short-term service delivery, and once this unit is delivered, it typically is not moved until demobilization

**NOTES:**
- Food service capabilities are based on the volume of meals served with a serving size of (or equivalent to) an eight-ounce entree, six-ounce vegetable, and six-ounce fruit. Operational needs guide actual serving size provided during an incident/event.
- A NIMS Type 1 Field Kitchen Manager is a supervisor or manager certified to a nationally recognized standard of food service preparation as described in NIMS Job Title and Position Qualification (509-9): Field Kitchen Manager.
- The deploying agency determines the team structure and span of control for managers and staff, as recommended by the National Incident Management System (NIMS) guidelines.
 COMMENTS
1. Consumable items such as food, water, ice, picnic packs, insulated food containers, and food safety supplies might not be delivered with the Field Kitchen Unit. The requestor should initiate coordination for the supply and re-supply of these consumable items at the time the Field Kitchen Unit is ordered. Additional consideration should be given to coordinate extra vehicles, equipment, and supplies such as insulated food containers, fuel, etc.
2. The Field Kitchen Unit and its personnel must comply with food safety, sanitation, solid waste, and other public health requirements as defined by the jurisdiction where the services are provided.
