

WILDFIRE WORKSHEET

for preliminary Benefit Cost Analysis conducted by the State Mitigation Technical Unit

Applies for the following mitigation activities: **DEFENSIBLE SPACE, HAZARDOUS FUELS REDUCTION, IGNITION RESISTANT CONSTRUCTION, OTHER ACTIVITIES RELATED.** For assistance, contact the State of Florida Mitigation Technical Unit.

IMPORTANT: This worksheet is required as part of your application. The State of Florida Mitigation Technical Unit will conduct a Benefit Cost Analysis (BCA) for your project and the following information is needed to evaluate cost effectiveness. Once a preliminary BCA is completed, the reviewer will contact you to collect support documentation.

NOTE: Having a complete worksheet will expedite the Technical Review.

SECTION I - PROJECT GENERAL INFORMATION

Project Name	
Applicant	
Point of Contact	Name:
	Address (Please include City, State and Zip Code):
	Phone number:
	Email:
HMA Program (FMA, PDM, HMGP, 406 PA MITIGATION)	

SECTION II - WILDFIRE GENERAL INFORMATION

Provide the following information for the area(s) you will be mitigating.

Zip Code	
-----------------	--

In case of multiple sites, attach to this worksheet a list of all locations/sites involved in this project.

State	
County	

SECTION III - PROJECT COST INFORMATION

Mitigation Project Cost	\$
--------------------------------	----

A lump sum on this worksheet is acceptable for preliminary BCA, but a detailed breakdown attached to your application is required.

Annual Maintenance Cost	\$
--------------------------------	----

Relates to the amount of money you expect to spend every year maintaining the project to ensure functionality at the time of a storm event.

SECTION IV - HAZARD / MITIGATION INFORMATION

Please select the type of mitigation measures you are proposing for this project:	
Defensible Space Activities	Hazardous Fuels Reduction Activities
Ignition Resistant Construction Activities	Other
If you selected Other , please provide a brief description:	
What is the percentage of effectiveness of this mitigation measure?	%

Attach on your application a detailed scope of work identifying each area to mitigate and the activities that will take place.

SECTION V - BEFORE MITIGATION INFORMATION

How many buildings will this project protect?	
What is the Building Replacement Value of all buildings this project will protect? <small>Attach to your application a list of all properties showing: Property ID, Address, Building Replacement Value, Building Type and Mitigation activities that will be completed for each property.</small>	\$
What is the value of the infrastructure vulnerable to fire within the project area?	\$
What is the value of timber to be sold within the proposed area?	\$
What is the cost of the fire suppression for one typical fire event within the proposed area?	\$
Other costs associated with fire-related losses	\$
What is the number of residents within the proposed area?	
What is the source used to calculate the number of residents?
