Impacts

• Standardized and comprehensive list of possible impacts
• Each hazard will have pertinent impacts listed
• This should simplify the process and make the Impact Analysis section of each hazard profile easier to read and understand

• Thoughts?
Goal 1: Implement an effective comprehensive statewide hazard mitigation plan.

- Objective 1.1: Provide training opportunities and encourage staff to pursue professional development.
- Objective 1.2: Pursue methodologies that will enhance mitigation successes.
- Objective 1.3: Integrate mitigation practices throughout all state plans, programs, and policies.
**Goal 2: Support local and regional mitigation strategies**

- **Objective 2.1:** Maintain up-to-date risk assessment information in coordination with local communities.
- **Objective 2.2:** Assist in integrating hazard mitigation concepts into other local and regional planning efforts such as comprehensive plans, local mitigation strategies, and comprehensive emergency management plans.
- **Objective 2.3:** Ensure that all communities are aware of available mitigation funding sources and cycles.
- **Objective 2.4:** Assist in the integration of climate change and sea level rise research into state, local and regional planning efforts.
- **Objective 2.5:** Conduct all possible actions to mitigate severe repetitive loss properties.
Goal 3: Increase public and private sector awareness and support for hazard mitigation in Florida

- Objective 3.1: Work with other state and regional entities to incorporate mitigation concepts and information into their outreach efforts.
- Objective 3.2: Educate Florida’s private sector about mitigation concepts and opportunities.
- Objective 3.3: Develop and integrate hazard mitigation curriculum into higher education.
- Objective 3.4: Educate state risk management entities on mitigation incentives.
- Objective 3.5: Support hazard mitigation research and development.
Goal 4: Support mitigation initiatives and policies that protect the state’s cultural, economic, and natural resources.

- Objective 4.1: Support land acquisition programs that reduce or eliminate potential future losses due to natural hazards and that are compatible with the protection of natural or cultural resources.
- Objective 4.2: Support restoration and conservation of natural resources wherever possible.
- Objective 4.3: Seek mitigation opportunities that reduce economic losses and promote responsible economic growth.
- Objective 4.4: Retrofit existing state-owned facilities.
- Objective 4.5: Participate in climate change and sea level rise research that will further the state and local government’s ability to plan for and mitigate the impacts of future vulnerability.
- Objective 4.6: Coordinate effective partnerships between state agencies for floodplain management.
