Manufactured Homes – floodplain management ordinance changes to prohibit installation of manufactured homes

Objective: Modify local floodplain management regulations to prohibit manufactured homes in flood hazard areas or to state manufactured homes are not allowed in the community.

Description: The National Flood Insurance Program regulations (44 CFR Section 60.3) include requirements for installation of manufactured homes in flood hazard areas. Some communities do not allow manufactured homes to be installed anywhere within their boundaries, while others do not allow manufactured homes to be installed in flood hazard areas.

These instructions explain how to modify floodplain management regulations to remove requirements for installation of manufactured homes when manufactured homes are not allowed. When communities do not permit manufactured homes in the community, the floodplain management regulations may be modified to restate that limitation. See separate instructions to remove the 36-inch elevation provision for installation in “existing manufactured home parks and subdivisions” (a defined term).

INSTRUCTIONS

1. The model ordinance used by Florida communities over the past 8 years has requirements for manufactured homes in Section 304 Manufactured Homes. Most communities renumbered the model ordinance sections to fit within their LDC/LDR or code of ordinance numbering scheme. In your community’s regulations, identify the correct section number that is titled Manufactured Homes.

2. Be sure to use YOUR ADOPTED ordinance language as the basis for showing the changes. The language shown below is from the Model Ordinance for communities that have Zone A/AE and Zone V. Your ordinance text may vary depending on the flood zones on the FIRM or if it was modified from the model. The approach is the same for communities that have only Zone A/AE.

3. Pay attention to renumbering subsections that will remain after deletions.

4. Modify Sec. 101 General to remove manufactured homes from the scope of the

Please Note! All communities that elect to modify regulations must submit draft ordinances to the SFMO at least 30 days before the first reading.

ordinance (modular/manufactured buildings are within the scope of the FBC).

5. Modify Sec. 106 Inspections to remove 106.6 inspection of manufactured homes.

6. Modify two subsections in Sec. 302 Subdivisions to remove references to manufactured home parks and subdivisions.

7. Sec. 202 Definitions:
   a. Delete the definitions for “existing manufactured home park or subdivision,” “expansion to an existing manufactured home park or subdivision,” “manufactured home park and subdivision,” and “new manufactured home park or subdivision” because provisions that use those terms are being removed.
   b. Retain the definition “manufactured home” because the term is used.
   c. Retain the term in the definition “Start of construction.”

8. Modify Sec. 304 Manufactured Homes. Depending on your objective, in Sec. 304.1 where {NOTE – INSERT LIMITATION} appears below, insert the appropriate phrase, select either:
   
   Manufactured homes are not allowed.
   
   Manufactured homes are not allowed in flood hazard areas.

   NOTE: You may modify these phrases. Some communities specify where in their zoning code manufactured homes are not allowed.

9. Modify Sec. 305 Recreational Vehicles and Park Trailers to remove the option for permanent placement which points to the requirements for installation of manufactured homes.

10. Send your draft to the SFMO at least 30 days before the first reading. Please put your community name in the subject line and send to floods@em.myflorida.com.

**Please Note!** Please consider including (or revising) requirements for non-elevated accessory structures and agricultural structures in the same ordinance you prepare for manufactured homes. In June 2020 the State Floodplain Management Office distributed guidance for including in local floodplain management regulations specific new provisions for non-elevated accessory structures and agricultural structures (by variance). The guidance is consistent with FEMA’s published policy and bulletin: [https://www.floridadisaster.org/dem/mitigation/floodplain/](https://www.floridadisaster.org/dem/mitigation/floodplain/) (Community Resources).
